ABOUT ME

Graduate with a Bachelor of Applied Science in Applied Data Science from the Electronics Engineering Polytechnic Institute of Surabaya (PENS). Gained 8 months of experience through practical training and internships at two institutions, with experience in data processing and analysis, data visualization, and data driven solution development. Actively involved in student organizations, progressing from committee roles and event conceptualization to serving as Chairman of the Student Association, which developed strong skills in management, leadership, problem solving, decision making, team coordination, and communication. A fast learner who is adaptable to new environments and capable of working independently or collaboratively to address and solve diverse challenges.

EDUCATION

Bachelor of Applied Science in Applied Data Science

Electronic Engineering Polytechnic Institute of Surabaya · Jl. Raya ITS, Keputih, Sukolilo, Surabaya, East Java 60111 · 2026 · 3.67/4.00
Graduated in July 2026

Senior High School - Mathematics and Natural Sciences

State Senior High School 20 Surabaya · Jl. Medokan Semampir Indah No.119, Medokan Semampir, Kec. Sukolilo, Surabaya, Jawa Timur 60119 · 2022

Junior High School

State Junior High School 17 Surabaya · Jl. Raya Tenggilis Mejoyo No. 1, Kali Rungkut, Rungkut, Surabaya, Jawa Timur 60293 · 2019

WORK EXPERIENCES

Research and Development Intern

PT Pasar Surya (Perseroda) | Sep 2026 – Present

- Perform data reconciliation across multiple data sources to identify discrepancies, validate records, and maintain consistency between marketing and market unit datasets.
- Clean, consolidate, and structure market data using Google Sheets, applying data matching, lookup, query, and validation techniques to support reconciliation activities.
- Conduct Exploratory Data Analysis (EDA) to identify missing values, anomalies, patterns, and data quality issues, supporting further analysis and reporting.

Data Science Intern

BMKG - Stasiun Meteorologi Maritim Tanjung Perak Surabaya | August 2025 – November 2025

- Collected, processed, and analyzed meteorological data to support daily weather observation and reporting activities.
- Conducted data analysis and identified patterns and trends in environmental datasets to support meteorological reporting and operational activities.
- Forecasted rainfall data from BMKG stations across East Java and classified the forecast results into rainfall intensity categories to support meteorological analysis and interpretation.

Data Analyst Intern

PT PAL Indonesia | January 2025 – May 2025

- Analyzed and processed operational machine performance data to provide insights for improving data accessibility and monitoring operational machine performance more efficiently.
- Developed a semi-real-time monitoring dashboard using Grafana and Apache ECharts to visualize operational machine performance.
- Deployed the monitoring dashboard to PT PAL Indonesia internal server to enable internal access and support operational machine performance monitoring.

President - Informatics Engineering Student Association

HIMIT PENS | Desember 2024 – November 2025

- Led the student organization by designing and overseeing impactful work programs and annual agendas tailored to the needs of Informatics Engineering students at PENS.
- Coordinated and monitored the performance of all association officials to ensure activities aligned with organizational goals and implementation schedules.
- Represented the organization in institutional meetings while making decisions and addressing various organizational challenges through communication and collaboration.

Event Concept Developer

PKKMB x TechnoGear PENS - BEM PENS | August 2024

- Developed the overall event concept, activity structure, and program flow to align with the objectives and needs of the PKKMB × Technogear PENS 2024 program.
- Coordinated with multiple committees throughout the planning and execution phases to ensure effective collaboration and smooth program implementation.
- Managed activity timelines and workflows while monitoring program execution to ensure activities were delivered according to established plans and schedules.

Event Concept Developer

HIMIT PENS | March 2024

- Develop activity concepts that support the event's objectives and the development of participants' soft skills.
- Collaborate with various committee members to coordinate planning and ensure the effective execution of the event.
- Manage timelines and workflows, and monitor implementation to ensure the event proceeds according to the established plan and schedule.

Junior Staf - Arts & Sports Department

HIMIT PENS | July 2023 - June 2024

- Execute work programs and arts and sports agendas to foster the interests and talents of students within the Informatics Engineering Student Association at the Electronic Engineering Polytechnic Institute of Surabaya (PENS).
- Collaborate with department members and other organizational officials to coordinate activities and ensure the effective execution of work programs and agendas in accordance with established timelines.
- Contribute to organizational programs and agendas while developing skills in teamwork, coordination, communication, and organizational management.

Election Committee Member

HIMIT PENS | January 2023 - March 2023

- Execute work programs and arts and sports agendas to foster the interests and talents of students within the Informatics Engineering Student Association at the Electronic Engineering Polytechnic Institute of Surabaya (PENS).
- Collaborate with department members and other organizational officials to coordinate activities and ensure the effective execution of work programs and agendas in accordance with established timelines.
- Contribute to organizational programs and agendas while developing skills in teamwork, coordination, communication, and organizational management.

CERTIFICATIONS & COURSES

Advanced Power BI for Data Exploration and Visualization

Electronic Engineering Polytechnic Institute of Surabaya (PENS) | August 2023

- Learned practical techniques in Power BI to explore datasets and support data-driven analysis.
- Created interactive visual dashboards and reports to present data findings clearly.
- Applied basic data modeling and exploratory analysis methods to organize raw data.

Industry Practitioner of Tableau Desktop

Electronic Engineering Polytechnic Institute of Surabaya (PENS) | September 2023

- Applied Tableau Desktop to explore datasets and build standard visual charts.
- Designed clean dashboards to help communicate data insights and trends clearly.
- Practiced data preparation and worksheet organization for reporting purposes.

Data Analytics and Visualization with Google Data Studio

Electronic Engineering Polytechnic Institute of Surabaya (PENS) | Oktober 2023

- Connected diverse data sources into Google Data Studio to perform routine data analysis.
- Created customized, easy-to-read dashboards and visual reports for tracking metrics.
- Applied practical filtering and dimension mapping to present key insights clearly.

JavaScript for Data Exploration and Visualization

Electronic Engineering Polytechnic Institute of Surabaya (PENS) | November 2023

- Used JavaScript fundamentals to manipulate datasets and support data exploration tasks.
- Built web-based charts and visual elements to present data findings clearly.
- Applied logic and scripting to process and structure raw data for analysis.

Pre-Basic Level Student Management Skills Training (LKMM Pra-TD) PENS 2022

Electronic Engineering Polytechnic Institute of Surabaya (PENS) | September - Oktober 2023

- Developed foundational leadership and student management skills through structured training and organizational activities.
- Strengthened communication, teamwork, and collaboration skills in working with diverse groups and team environments.
- Developed adaptability and problem-solving skills to effectively respond to challenges and changing situations.

SKILLS

Hard Skills

Programming & Data Science: Python, R, SQL, JavaScript, Machine Learning, Natural Language Processing (NLP

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Tableau, Google Data Studio, Grafana

Machine Learning & AI: Scikit-learn, Naive Bayes, Support Vector Machine (SVM), Long Short-Term Memory (LSTM), Sentiment Analysis, Topic Modeling, TextBlob

Database & Data Management: MySQL, PostgreSQL, Microsoft SQL Server, Data Cleaning, Data Preprocessing, ETL, Data Management

Business Intelligence & Dashboard: Power BI, Tableau, Google Data Studio, Dashboard Development, Data Visualization, KPI Reporting

Microsoft & Productivity Tools: Microsoft Excel, Microsoft Word, Microsoft PowerPoint

Design & Development Tools: Figma, Canva, Draw.io, Miro, Git/GitHub

Soft Skills

Leadership, Communication, Teamwork, Collaboration, Problem Solving, Analytical Thinking, Critical Thinking, Adaptability, Time Management, Attention to Detail, Continuous Learning
