ABOUT ME

I am an enthusiastic and adaptable Applied Bachelor student in Applied Data Science at the Electronics Engineering Polytechnic Institute of Surabaya (PENS). I have a strong interest in Artificial Intelligence and Data Analytics, along with skills in programming, data analysis, and modeling. Actively involved in student organizations, I am experienced in teamwork and effective communication, and ready to contribute in a dynamic and innovative environment.

EXPERIENCE

Chairman of the Informatics Engineering Student Association at PENS

HIMIT PENS

January 2025 – Present, Surabaya

- Led and coordinated all student association activities to achieve the organization's vision and mission, while formulating annual work programs aligned with student aspirations.
- Represented students in various forums, managed the cadre formation process, and supervised the implementation and evaluation of departmental activities.

Intern Data Analyst

PT PAL Indonesia

January 2025 – May 2025, Surabaya

- Developed various semi real-time monitoring dashboards using Grafana and ECharts for ECW Crane, Fanuc machines, and Ingersoll Rand Compressors to support machine performance evaluation and tracking.
- Designed a server-based Guest Book dashboard that visualizes visitor data interactively to support data-driven visitor management.
- Built an informative employee demographic dashboard to assist HR and management in making strategic, data-driven decisions.

Project Based Learning Pengembangan Dashboard Scrap Value Monitoring untuk Perusahaan PT. E-T-A Indonesia

PT E-T-A Indonesia

September 2024 – November 2024, Surabaya

- Exploring the dashboard to identify more efficient and informative patterns.
- Enhancing the existing dashboard to make it more informative according to customer requests.

Youth Staff at the Arts & Sports Department, Informatics Engineering Student Association – PENS

HIMIT PENS

October 2023 – September 2024, Surabaya

- Led and designed the Sports Community Week 2023 program, introducing HIMIT sports communities to new students.
- Managed Instagram visual content for the HIMIT PENS 2023–2024 Senior Corner to support the organization's branding and communication.

Event Division Coordinator for the Basic Level Student Management Skills Training (LKMM) at HIMIT PENS

PENS

May 2024 – May 2024, Surabaya

- Responsible for ensuring the smooth execution of the event in accordance with the concept and rundown, while coordinating with other divisions to ensure everything runs as planned.

Steering Committee Coordinator for DYNAMIC HIMIT PENS 2023

HIMIT PENS

September 2023 – March 2024, Surabaya

- Designed and presented the cadre formation concept for departmental activities based on the Student Resource Development Model to HIMIT PENS members.
- Monitored the implementation of cadre formation and regularly evaluated the performance of the steering committee and cadre formation committee.

Member of the Steering Committee for the New Student Campus Life Introduction Program (PKKMB) and

TECHNOGEAR PENS 2024

PENS

December 2023 – February 2024, Surabaya

- Designed and presented the cadre formation concept for the PENS Student Family based on the student resource development plan, and was responsible for the performance and functions of the event, licensing, and data divisions.

Election Commission of HIMIT PENS

HIMIT PENS

December 2022 – March 2023, Surabaya

- Established election regulations, formed committees, and supervised the election process for the HIMIT Chair in accordance with applicable rules.
- Determined the final election results, reported them to HIMIT members, and imposed sanctions for any violations during the election process.

Community Service – Applied Data Science Study Program: Infant Weight Monitoring System at Integrated Healthcare Centers Based on IoT

Applied Data Science, PENS

September 2022 – November 2022, Surabaya

- Developed a Python-based stunting classification model using the KNN method on a web platform integrated with IoT devices (ESP32) for child nutrition monitoring, conducted outreach to Posyandu staff at Posyandu Anyelir I in Surabaya, and input dummy data for device testing.

EDUCATION

Bachelor of Applied Science in Applied Data Science

Minor in Applied Data Science • Electronic Engineering Polytechnic Institute of Surabaya
• Jl. Raya ITS, Keputih, Sukolilo, Surabaya, East Java 60111 • 2026 • 3.59

High School Student

Minor in Mathematics and Natural Sciences Major • State Senior High School 20 Surabaya
• Jl. Medokan Semampir Indah No.119, Medokan Semampir, Kec. Sukolilo, Surabaya, Jawa Timur 60119 • 2022

CERTIFICATIONS

Participant of the Basic Level Student Management Skills Training

BEM PENS • 2023
• The certificate demonstrates my understanding of basic organizational and leadership skills, which are essential for team collaboration and effective project management.

Awarded for the successful completion and advanced proficiency of JavaScript for data exploration and visualization

Applied Data Science Study Program • 2023
• The certificate demonstrates my ability to use JavaScript for data exploration and visualization, which is essential for building interactive dashboards and communicating insights effectively.

Successfully completing the Data Analytics and Visualization course with Google Data Studio

Applied Data Science Study Program • 2023
• The certificate validates my ability to analyze and visualize data using Google Data Studio, a valuable skill for transforming raw data into clear, actionable insights for decision-making.

Industry Practitioner of Tableau Desktop

Applied Data Science Study Program • 2023
• The certificate demonstrates my proficiency in using Tableau Desktop to create interactive data visualizations, a key skill for presenting insights clearly and supporting data-driven decisions in professional environments.

Awarded for recognized skills in POWER BI for data exploration and visualization

Applied Data Science Study Program • 2023
• The certificate proves my ability to use Power BI for data exploration and visualization, enabling me to transform complex datasets into meaningful dashboards that support data-driven decisions.

Participant of the Pre-Basic Level Student Management Skills Training

BEM PENS • 2022
• This certificate reflects foundational skills in management, communication, and teamwork relevant to both organizational and professional settings.

SKILLS

Programming Languages & Web Development:Python, R, HTML, CSS, JavaScript, MySQL
Data Analysis & Statistical Tools:SPSS, Minitab, Power BI, Tableau, Grafana, Pentaho
Design & Prototyping Tools:Figma, Canva, Draw.io, Miro
Office Productivity:Microsoft Word, Microsoft Excel

Soft Skills:

Leadership, Communication, Teamwork, Problem Solving
